COURSE BROCHURE

AI Tools for Libraries - Source Verification & Practical Use

Diploma, Vocational & Skills / Library & Information Science

One-time full-course fee

INR 1,499

Access

12 months course access

Study plan

10 suggested study hours; 12 months access

Learning format

Four self-paced written English lessons in two modules, with original fictional examples, explained practice and a self-assessed capstone. Optional automated Course Tutor assistance is available in the protected LMS. Readings are AI-authored with independent AI editorial and primary-source checks; independent human academic review is not included.

Programme overview

Four original written lessons on bounded AI drafting, metadata validation, reference-source checking and a measured fictional pilot. Includes prompts, supplied output fixtures and a self-assessed capstone; no subscriptions, automatic catalogue changes or product benchmark are included. Four self-paced written English lessons in two modules, with original fictional examples, explained practice and a self-assessed capstone. Optional automated Course Tutor assistance is available in the protected LMS. Readings are AI-authored with independent AI editorial and primary-source checks; independent human academic review is not included. Independent ZELVU study support within the listed scope. No university degree, recognised diploma, official examination, vendor accreditation, recruitment eligibility, job placement or outcome guarantee is included. Live human teaching, individual human marking and a recorded video lecture series are not included. Software hosting, paid subscriptions, proprietary classification schedules and standards, examination fees and university fees are separate. Practical exercises use supplied fictional data and offline planning alternatives; a hosted Koha or DSpace system is not provided. Suggested study hours include reading, practice and revision, not video runtime. Related existing degree/NET support courses remain separately sold; review their syllabus before

purchase.

Who this is for

1. Basic library terminology, English reading and ability to compare a draft with a source. An approved AI tool is optional because all exercises include offline source and output fixtures.
2. Use fictional practice records and resources you are entitled to use. Check your university, employer or examination authority for any separate qualification and selection requirements.

Published topics and learning focus

1. Choose a library task and bound the AI draft
2. Validate AI-assisted metadata without inventing facts
3. Use AI drafts in a reference workflow
4. Capstone: evaluate a library AI pilot before adoption

Before you choose

1. These are published programme highlights, not certification of complete syllabus coverage. Review the available reading index and programme trial before enrolling.
2. ZELVU provides learning support. It does not award the underlying degree, professional registration or an examination result.
3. Current checkout terms and refund policy apply. Payment and access require successful provider verification.
