## Programme overview

3-year bachelor's route / 4-year honours or research route, where offered. Year-wise / professional-phase study plans, original foundation workshops, answered practice and available protected LMS readings. This is supplementary academic learning support, not admission to or award of a university degree. The published 12-month LMS access is not the degree duration. Complete university-specific syllabus coverage is not yet certified.

## Who this is for

- 1

This is supplementary academic learning support, not admission to or award of a university degree.
- 2

Confirm the exact university, award, admission batch, major/minor combination and current syllabus. A fourth-year route is conditional on the university's regulations and eligibility; it is not automatically included in every three-year award.

## Published topics and learning focus

- 1 Year 1: Scientific method and measurement; Chemistry and biology foundations; Evidence integrity; Ethics and documentation
- 2 Year 2: Analytical chemistry; Forensic biology principles; Physics of trace evidence; Statistics and uncertainty
- 3 Year 3: Document and digital evidence principles; Toxicology concepts; Evidence interpretation and reporting; Supervised case-file project
- 4 Year 4 - optional honours / research route: Advanced forensic research; Validation and error rates; Research design; Approved honours / research dissertation

## Before you choose

- 1 These are published programme highlights, not certification of complete syllabus coverage. Review the available reading index and programme trial before enrolling.
- 2 ZELVU provides learning support. It does not award the underlying degree, professional registration or an examination result.
- 3 Current checkout terms and refund policy apply. Payment and access require successful provider verification.
