<p>Study plan</p> <p>4 years · 8 semesters · normal-entry B.Tech. / B.E.</p>	<p>Learning format</p> <p>Online academic learning support - reading, Course Tutor and practice</p>

Programme overview

4 years · 8 semesters · normal-entry B.Tech. / B.E.. Year-wise / professional-phase study plans, original foundation workshops, answered practice and available protected LMS readings. This is supplementary academic learning support, not admission to or award of a university degree. The published 12-month LMS access is not the degree duration. Complete university-specific syllabus coverage is not yet certified.

Who this is for

- 1

This is supplementary academic learning support, not admission to or award of a university degree.
- 2

The duration describes the standard full-time qualification route, not the number of months purchased on ZELVU. University paper names, semester order, electives, admission rules and batch-specific regulations must be checked separately.

Published topics and learning focus

- 1 Year 1: Engineering mathematics; Applied physics and chemistry; Programming and graphics; Workshop theory and engineering ethics
- 2 Year 2: Data structures; Linear algebra; Probability; Algorithms
- 3 Year 3: Machine learning; Deep learning foundations; Data engineering; Responsible AI
- 4 Year 4: Advanced AI electives; Reproducible evaluation; Deployment design; Capstone

Before you choose

- 1 These are published programme highlights, not certification of complete syllabus coverage. Review the available reading index and programme trial before enrolling.
- 2 ZELVU provides learning support. It does not award the underlying degree, professional registration or an examination result.
- 3 Current checkout terms and refund policy apply. Payment and access require successful provider verification.
