| **Semester / university aligned** | **Self-paced subject reading, Course Tutor and practice** |

## Programme overview

Supplementary academic support for BTech Subject - Programming in C, with original concept notes, topic practice, revision and Tutor-led explanation. The underlying degree or qualification is awarded only by the learner's recognised institution.

## Who this is for

1. Single-subject supplementary academic support. Match the published reading index to your institution and current syllabus.
2. This is not a complete degree programme. University teaching, clinical or laboratory training, assessment and professional registration remain with the authorised institution.

## Published topics and learning focus

1. Structure of a C Program, Data Types, Variables and Input-Output
2. Operators, Expressions and Type Conversion
3. Decision Making and Loop Control
4. Functions, Scope, Storage Classes and Recursion

## Before you choose

1. These are published programme highlights, not certification of complete syllabus coverage. Review the available reading index and programme trial before enrolling.
2. ZELVU provides learning support. It does not award the underlying degree, professional registration or an examination result.
3. Current checkout terms and refund policy apply. Payment and access require successful provider verification.

## Take the next step

**Explore the programme trial**

**View current details, scope and terms**

**Ask ZELVU about this programme**
