Learning format

6 self-paced written English lessons with original fictional cases, applied exercises, explained answers and a self-assessed capstone. Optional automated Course Tutor assistance is available in the protected LMS. Readings are AI-authored with AI editorial and source checks; independent human academic review is not included.

Programme overview

Six original lessons connect attention, working memory, executive functions, remembering, language, multilingual experience and early literacy and numeracy. Worked fictional cases lead to an accessible learning-design capstone with model answers and a self-assessment rubric. 6 self-paced written English lessons with original fictional cases, applied exercises, explained answers and a self-assessed capstone. Optional automated Course Tutor assistance is available in the protected LMS. Readings are AI-authored with AI editorial and source checks; independent human academic review is not included. For adult learners aged 18 or over. Independent ZELVU educational study support only. No university degree, university credit, recognised professional qualification, clinical or special-educator licence, diagnosis, therapy, supervised placement or research ethics approval is included. Live human teaching, individual marking, a recorded lecture series, external textbook licences and proprietary assessment instruments are not included. All course exercises use supplied fictional cases; no real-child observation, testing or data collection is required or authorised. The same learning material is included in Child & Adolescent Psychology - MA Study Support (Non-degree). Choose this specialist course or the combined programme; separate specialist purchases are unnecessary if you buy the combined

programme. The combined purchase does not grant separate specialist course entitlements. Existing related courses are sold separately.

Who this is for

1. Basic English reading. The Child Development Foundations pack is helpful but not mandatory. Exercises use supplied fictional cases and require no child testing or clinical work.
2. Adults only. Use the supplied fictional cases and data; do not submit identifiable information about children.

Published topics and learning focus

1. Attention, working memory and executive functions in everyday tasks
2. Remembering, retrieval practice, spacing and transfer
3. Language components, communication and accessible interaction
4. Multilingual development, language experience and fair interpretation
5. Early literacy, numeracy and conceptual understanding
6. Capstone: design, explain and review an accessible learning sequence

Before you choose

1. These are published programme highlights, not certification of complete syllabus coverage. Review the available reading index and programme trial before enrolling.
2. ZELVU provides learning support. It does not award the underlying degree, professional registration or an examination result.
3. Current checkout terms and refund policy apply. Payment and access require successful provider verification.
