8 self-paced written English lessons with original fictional cases, applied exercises, explained answers and a self-assessed capstone. Optional automated Course Tutor assistance is available in the protected LMS. Readings are AI-authored with AI editorial and source checks; independent human academic review is not included.

Programme overview

An eight-lesson introduction to developmental domains, lifespan change, major explanatory theories, biology and environment, nurturing relationships, research methods and culturally careful interpretation. Original fictional cases and a self-assessed evidence-review capstone support independent academic study. 8 self-paced written English lessons with original fictional cases, applied exercises, explained answers and a self-assessed capstone. Optional automated Course Tutor assistance is available in the protected LMS. Readings are AI-authored with AI editorial and source checks; independent human academic review is not included. For adult learners aged 18 or over. Independent ZELVU educational study support only. No university degree, university credit, recognised professional qualification, clinical or special-educator licence, diagnosis, therapy, supervised placement or research ethics approval is included. Live human teaching, individual marking, a recorded lecture series, external textbook licences and proprietary assessment instruments are not included. All course exercises use supplied fictional cases; no real-child observation, testing or data collection is required or authorised. The same learning material is included in Child & Adolescent Psychology - MA Study Support (Non-degree). Choose this specialist course or the combined programme; separate specialist purchases are unnecessary if you

buy the combined programme. The combined purchase does not grant separate specialist course entitlements. Existing related courses are sold separately.

Who this is for

1. English reading and basic percentage calculations. No clinical background is required; all assessed exercises use the fictional records supplied here.
2. Adults only. Use the supplied fictional cases and data; do not submit identifiable information about children.

Published topics and learning focus

1. Developmental domains, individual trajectories and careful description
2. Lifespan timing, transitions and developmental variation
3. Piaget, Vygotsky and the interpretation of learning tasks
4. Learning, ecological systems and reciprocal influence
5. Genes, environments and developmental pathways
6. Nurturing care, stress and protective contexts
7. Developmental methods, measurement and ethical evidence
8. Culture, opportunity and an integrated developmental evidence-review capstone

Before you choose

1. These are published programme highlights, not certification of complete syllabus coverage. Review the available reading index and programme trial before enrolling.
2. ZELVU provides learning support. It does not award the underlying degree, professional registration or an examination result.
3. Current checkout terms and refund policy apply. Payment and access require successful provider verification.
