Optional automated Course Tutor assistance is available in the protected LMS. Readings are AI-authored with AI editorial and source checks; independent human academic review is not included.

Programme overview

Non-degree independent academic support in describing behaviour, selecting observation methods, checking agreement, interpreting context, understanding measurement limits and communicating proportionate support questions. All cases and data are fictional; no real-child observation, diagnostic testing, counselling or clinical practice is included or authorised. 6 self-paced written English lessons with original fictional cases, applied exercises, explained answers and a self-assessed capstone. Optional automated Course Tutor assistance is available in the protected LMS. Readings are AI-authored with AI editorial and source checks; independent human academic review is not included. For adult learners aged 18 or over. Independent ZELVU educational study support only. No university degree, university credit, recognised professional qualification, clinical or special-educator licence, diagnosis, therapy, supervised placement or research ethics approval is included. Live human teaching, individual marking, a recorded lecture series, external textbook licences and proprietary assessment instruments are not included. All course exercises use supplied fictional cases; no real-child observation, testing or data collection is required or authorised. The same learning material is included in Child & Adolescent Psychology - MA Study Support (Non-degree). Choose this specialist course or

the combined programme; separate specialist purchases are unnecessary if you buy the combined programme. The combined purchase does not grant separate specialist course entitlements. Existing related courses are sold separately.

Who this is for

1. Comfort reading English and using basic arithmetic. No clinical qualification is required; this course does not confer one.
2. Adults only. Use the supplied fictional cases and data; do not submit identifiable information about children.

Published topics and learning focus

1. Describe behaviour before explaining it
2. Select a sampling method that fits the question
3. Check agreement without mistaking it for truth
4. Interpret patterns in context and across sources
5. Understand scores, uncertainty and the limits of screening
6. Capstone: write an evidence-led support and referral note

Before you choose

1. These are published programme highlights, not certification of complete syllabus coverage. Review the available reading index and programme trial before enrolling.
2. ZELVU provides learning support. It does not award the underlying degree, professional registration or an examination result.
3. Current checkout terms and refund policy apply. Payment and access require successful provider verification.
