Optional automated Course Tutor assistance is available in the protected LMS. Readings are AI-authored with AI editorial and source checks; independent human academic review is not included.

Programme overview

Non-degree independent academic support in research questions, designs, child-research ethics, data stewardship, sampling, descriptive and inferential statistical literacy, critical appraisal and proposal writing. All exercises use supplied fictional records; no recruitment, real-child data collection, clinical evaluation, university credit or research approval is provided. 8 self-paced written English lessons with original fictional cases, applied exercises, explained answers and a self-assessed capstone. Optional automated Course Tutor assistance is available in the protected LMS. Readings are AI-authored with AI editorial and source checks; independent human academic review is not included. For adult learners aged 18 or over. Independent ZELVU educational study support only. No university degree, university credit, recognised professional qualification, clinical or special-educator licence, diagnosis, therapy, supervised placement or research ethics approval is included. Live human teaching, individual marking, a recorded lecture series, external textbook licences and proprietary assessment instruments are not included. All course exercises use supplied fictional cases; no real-child observation, testing or data collection is required or authorised. The same learning material is included in Child & Adolescent Psychology - MA Study Support (Non-degree). Choose this specialist course or the combined

programme; separate specialist purchases are unnecessary if you buy the combined programme. The combined purchase does not grant separate specialist course entitlements. Existing related courses are sold separately.

Who this is for

1. Comfort reading English and calculating basic percentages. A calculator may be used. No access to children, personal data or proprietary tests is needed.
2. Adults only. Use the supplied fictional cases and data; do not submit identifiable information about children.

Published topics and learning focus

1. Turn a broad topic into an answerable research question
2. Choose a design and control the strength of the claim
3. Understand ethics, permission and children's assent
4. Protect data and preserve an honest research record
5. Describe a sample accurately before drawing conclusions
6. Read uncertainty, effect sizes and p-values responsibly
7. Critically appraise evidence and write an honest academic argument
8. Capstone: build a transparent research proposal using fictional data

Before you choose

1. These are published programme highlights, not certification of complete syllabus coverage. Review the available reading index and programme trial before enrolling.
2. ZELVU provides learning support. It does not award the underlying degree, professional registration or an examination result.
3. Current checkout terms and refund policy apply. Payment and access require successful provider verification.
