

COURSE BROCHURE

Fire Safety & Emergency Planning - Awareness

Diploma, Vocational & Skills / Fire & Workplace Safety

One-time full-course fee

INR 1,499

Access

12 months course access

Study plan

3-5 weeks suggested study; 12 months access

Learning format

Twenty-one self-paced written lessons in English: nine existing safety workshops and twelve new fire-specific readings with worked scenarios, safe desktop exercises, 80 additional explained questions and a final portfolio.

Programme overview

Study fire prevention, smoke and escape decisions, alarms and emergency calls, Indian extinguisher labels and limits, equipment observations, electrical and kitchen scenarios, hot-work interfaces, inclusive communication and incident follow-up. Twenty-one self-paced written lessons in English: nine existing safety workshops and twelve new fire-specific readings with worked scenarios, safe desktop exercises, 80 additional explained questions and a final portfolio. Online awareness and theory only. No practical firefighting, live extinguisher drills, rescue exercises, electrical work, supervised workplace assessment or accredited qualification is included. No statutory safety-officer qualification, fire-service approval, NEBOSH/IOSH/OSHA accreditation or practical competence certification. No live classes, recorded lectures or individual human marking. Hazardous work requires separate competent training and authorisation. The nine existing safety-management workshops are preserved and overlap with the broader Safety Management range. Twelve additional fire-specific lessons are included here. Warden and electrical courses use separate readings but share awareness themes; compare the reading lists before buying more than one course.

Who this is for

- 1 For adults aged 18+ who can read English and want introductory awareness or planning education.
- 2 Every exercise is a fictional desktop task. Do not start fires, discharge equipment, enter hazards, carry casualties, open panels or practise emergency interventions from these notes.
- 3 Online awareness and theory only. No practical firefighting, live extinguisher drills, rescue exercises, electrical work, supervised workplace assessment or accredited qualification is included. No statutory safety-officer qualification, fire-service approval, NEBOSH/IOSH/OSHA accreditation or practical competence certification. No live classes, recorded lectures or individual human marking. Hazardous work requires separate competent training and authorisation.
- 4 The nine existing safety-management workshops are preserved and overlap with the broader Safety Management range. Twelve additional fire-specific lessons are included here. Warden and electrical courses use separate readings but share awareness themes; compare the reading lists before buying more than one course.

Published topics and learning focus

- 1 Hazard identification and a defensible risk assessment
- 2 Choose controls using the hierarchy of prevention
- 3 Fire prevention and the limits of firefighting awareness
- 4 Emergency planning, inclusive evacuation and drills
- 5 Chemical hazard communication, SDS and exposure pathways
- 6 Permit-to-work lifecycle and simultaneous operations
- 7 Contractor coordination, induction and supervisor leadership
- 8 Workplace inspections and evidence-based findings
- 9 Final case assignment and explained self-assessment
- 10 Fire prevention: separating ignition, fuel and opportunity
- 11 Smoke, changing conditions and escape-first decisions
- 12 Raising the alarm and making a useful emergency call
- 13 Routes, assembly points and honest accountability

- 14 Understanding extinguisher labels and the limits of firefighting awareness
- 15 Fire protection systems: notice defects without tampering
- 16 Electrical, kitchen and fuel incidents: avoiding harmful improvisation
- 17 Hot work, temporary changes and combustible storage
- 18 People, visitors and accessible fire-safety communication
- 19 Near misses, useful reports and verified corrective actions
- 20 Integrated tabletop: making decisions as information changes
- 21 Final review and a personal fire-safety learning portfolio

Before you choose

- 1 These are published programme highlights, not certification of complete syllabus coverage. Review the available reading index and programme trial before enrolling.
- 2 ZELVU provides learning support. It does not award the underlying degree, professional registration or an examination result.
- 3 Current checkout terms and refund policy apply. Payment and access require successful provider verification.
