COURSE BROCHURE

IEEE Referencing for Engineering and Computing Articles

Research & Doctoral Support / Academic Referencing & Citation

One-time full-course fee

INR 999

Access

12 months course access

Study plan

8 suggested study hours; 12 months access

Learning format

6 self-paced written English lessons with original examples, practical exercises, explained answers and a self-assessed capstone. Optional automated Course Tutor assistance is available in the protected LMS.

Programme overview

Six original written lessons covering IEEE numbered citations, journal/conference/book references, datasets, software, standards, technical pinpoints, reference-manager revision and evidence auditing. Includes fictional worked exercises and a self-assessed manuscript capstone. 6 self-paced written English lessons with original examples, practical exercises, explained answers and a self-assessed capstone. Optional automated Course Tutor assistance is available in the protected LMS. Independent ZELVU practical study. Software licences, official style manuals, live human teaching, individual marking, recorded lecture series, external accreditation and journal publication are not included. Follow the required institution or journal guide and verify source metadata; examples labelled fictional are for formatting practice only. These six lessons are also included in the Academic Referencing Complete Course. Choose this specialist course for IEEE-focused practice or the comprehensive path for all included styles; buying both repeats this material.

Who this is for

1. Ability to read an academic paragraph in English; basic familiarity with technical reports is helpful but not required.
2. Use a personal practice manuscript and permitted, non-confidential source records.

Published topics and learning focus

1. IEEE numbered citations: a reference is not a footnote
2. Building journal, conference and book references
3. Datasets, software, standards and precise technical locators
4. Maintaining IEEE references through manuscript revision
5. Checking technical evidence, source status and citation integrity
6. Capstone: a numbered technical manuscript that survives revision

Before you choose

1. These are published programme highlights, not certification of complete syllabus coverage. Review the available reading index and programme trial before enrolling.
2. ZELVU provides learning support. It does not award the underlying degree, professional registration or an examination result.
3. Current checkout terms and refund policy apply. Payment and access require successful provider verification.
