16 suggested study hours; 12 months access

Learning format

8 self-paced written English lessons with worked calculations and cases, answered exercises, explained knowledge checks and a self-assessed capstone. Existing automated Course Tutor assistance is available in the protected LMS.

Programme overview

Eight written lessons mapping IFRS 17 knowledge to Ind AS 117, with officially evidenced differences, dated notification context, original data/disclosure exercises and an assessed capstone. The course does not assert a blanket adoption date for every Indian insurer; entity, reporting-purpose and current regulatory verification remain essential. 8 self-paced written English lessons with worked calculations and cases, answered exercises, explained knowledge checks and a self-assessed capstone. Existing automated Course Tutor assistance is available in the protected LMS. Independent ZELVU study material. No live human teaching, new recorded lecture series, individual professional review, software licence, external examination, accredited CPD credits or IFRS Foundation, ICAI, ACCA or actuarial qualification is included. Simplified fictional examples teach accounting methods; actual reporting requires the applicable standard, current jurisdiction-specific rules and appropriate professional judgement. This specialist course is also included in the IFRS 17 Complete Learning Path; choose the pathway or this focused course to avoid purchasing overlapping material.

Who this is for

1. IFRS 17 foundations and basic Indian financial reporting concepts. This course is a technical bridge, not individual legal, actuarial or audit advice.
2. Study using fictional or authorised non-confidential data.

Published topics and learning focus

1. Identify the reporting framework before translating a model
2. Read the notification history without inventing one adoption date
3. Identify evidenced differences and reject invented carve-outs
4. Map contracts and data into an Indian reporting bridge
5. Prepare an Indian disclosure and transition bridge
6. Design implementation controls and a meaningful parallel run
7. Verify a regulatory claim before using it in a report
8. Capstone: build an evidence-based India reporting bridge

Before you choose

1. These are published programme highlights, not certification of complete syllabus coverage. Review the available reading index and programme trial before enrolling.
2. ZELVU provides learning support. It does not award the underlying degree, professional registration or an examination result.
3. Current checkout terms and refund policy apply. Payment and access require successful provider verification.
