Astrology & Chart Reading / Vedic Chart Methods

One-time full-course fee

INR 5,999

Access

12 months course access

Study plan

22 suggested study hours; 12 months access

Learning format

Six self-paced written lessons in English with worked examples, exercises, explained answers and a capstone with a self-assessment rubric. Optional automated Course Tutor assistance is available in the protected LMS.

Programme overview

Learn a reproducible introductory KP worksheet: named ayanamsa and Placidus settings, unequal sub-lord partitions, cusp occupancy, a declared significator hierarchy and numbered-horary table literacy. Original exercises teach method and uncertainty; this is not an exhaustive KP certification or a promise of accurate event prediction. Six self-paced written lessons in English with worked examples, exercises, explained answers and a capstone with a self-assessment rubric. Optional automated Course Tutor assistance is available in the protected LMS. Study of traditional and symbolic interpretive methods. Astrological predictions are not scientifically established. No live human classes, personal chart consultation, individual human marking, recorded lecture series, software licence, external accreditation or guaranteed outcome is included. Examples use fictional or supplied data; this course does not provide medical, financial or legal advice. A specialist method course after general Kundali Reading. It preserves the distinction between KP cusp-based analysis and whole-sign Parashari or separate Prashna methods.

Who this is for

1. Foundational zodiac, nakshatra and Vimshottari knowledge, plus degree-minute-second arithmetic. Supplied synthetic cusp tables make paid software unnecessary.
2. Use fictional or explicitly consented chart data; keep personal birth details private.

Published topics and learning focus

1. KP conventions: what a calculation record must contain
2. Calculating sub-lords with exact unequal intervals
3. Unequal houses: occupancy, ownership and cusp labels
4. Build a significator ledger with traceable links
5. Numbered horary and sub-sub-lords: finer does not mean certain
6. Capstone: a checked cusp, stellar and horary dossier

Before you choose

1. These are published programme highlights, not certification of complete syllabus coverage. Review the available reading index and programme trial before enrolling.
2. ZELVU provides learning support. It does not award the underlying degree, professional registration or an examination result.
3. Current checkout terms and refund policy apply. Payment and access require successful provider verification.
