Programme overview

Build dependable intake, conflict-review, diary, file, delegation and capacity systems for a small legal practice, with practical controls for client communication and money records. 6 self-paced written English lessons with original worked examples, practical tasks, explained answers and a self-assessed capstone. Optional automated Course Tutor assistance is available in the protected LMS. Independent ZELVU skills study for the Indian legal-practice context. No client leads, client or income guarantee, case-outcome promise, live human instruction, supervised courtroom practice, individual human marking, recorded lecture series, professional enrolment or external accreditation is included. Check current law, court directions and professional rules before actual use; all client and case exercises are fictional. These same six written lessons are included in the Advocacy & Law Practice Complete Course. Choose the complete course or the individual specialist courses you need; buying both repeats this material. Existing related litigation and drafting programmes are separate.

Who this is for

1. Law students, graduates and advocates who can read English. Basic familiarity with legal practice is helpful; actual client matters require appropriate professional eligibility and supervision.
2. Use fictional case files and avoid uploading confidential client information into practice exercises or AI tools.

Published topics and learning focus

1. Open the right matter with clear responsibility
2. Control dates, hearings and follow-up work
3. Keep matter files complete, controlled and usable
4. Delegate work with clear review and realistic capacity
5. Use a small dashboard and a ninety-day improvement plan
6. Capstone: run a controlled week at a fictional chamber
