64 self-paced written English lessons with original fictional cases, applied exercises, explained answers and ten self-assessed capstones. Optional automated Course Tutor assistance is available in the protected LMS. Readings are AI-authored with AI editorial and source checks; independent human academic review is not included.

Programme overview

Independent, non-degree MA-topic study support in child and adolescent psychology. Study developmental foundations, cognition and language, social-emotional development, adolescence, parenting, inclusion, mental-health literacy, safeguarding, observation and research methods. The published syllabus contains the same 64 original written lessons and ten self-assessed capstones offered in the specialist courses. It is not a university MA programme or a claim of equivalence to a particular university syllabus. 64 self-paced written English lessons with original fictional cases, applied exercises, explained answers and ten self-assessed capstones. Optional automated Course Tutor assistance is available in the protected LMS. Readings are AI-authored with AI editorial and source checks; independent human academic review is not included. For adult learners aged 18 or over. Independent ZELVU educational study support only. No university degree, university credit, recognised professional qualification, clinical or special-educator licence, diagnosis, therapy, supervised placement or research ethics approval is included. Live human teaching, individual marking, a recorded lecture series, external textbook licences and proprietary assessment instruments are not included. All course exercises use supplied fictional cases; no real-child observation, testing or data collection is required or

authorised. Includes the same learning material as all ten specialist child-psychology courses in this collection, within this single course. Separate specialist purchases are unnecessary. It does not grant separate course entitlements or extend earlier purchases. Existing BA/MA Psychology, UGC NET, school Psychology, Special Education Foundations and Child & Infant First Aid courses are related and sold separately.

Who this is for

1. Adult learners with English reading and basic arithmetic skills. Prior psychology study is helpful; begin with Child Development Foundations. This is independent study support, not admission to a degree programme.
2. Adults only. Use the supplied fictional cases and data; do not submit identifiable information about children.

Published topics and learning focus

1. Child Development Foundations - Theory, Context & Evidence
2. Child Cognition, Language & Learning
3. Child Social & Emotional Development
