## Programme overview

Supplementary academic support for MBBS Subject - Microbiology, with original concept notes, topic practice, revision and Tutor-led explanation. The underlying degree or qualification is awarded only by the learner's recognised institution.

## Who this is for

1. Single-subject supplementary academic support. Match the published reading index to your institution and current syllabus.
2. This is not a complete degree programme. University teaching, clinical or laboratory training, assessment and professional registration remain with the authorised institution.

## Published topics and learning focus

1. General Bacteriology: Bacterial Structure, Staining, Culture and Sterilisation
2. Immunology: Innate and Acquired Immunity, Antibodies, Hypersensitivity and Vaccines
3. Gram-Positive Bacteria: Staphylococci, Streptococci, Clostridia and Corynebacterium diphtheriae
4. Gram-Negative Bacteria and Mycobacteria: Enteric Bacilli, Vibrio cholerae, Neisseria, Tuberculosis and Leprosy

## Before you choose

1. These are published programme highlights, not certification of complete syllabus coverage. Review the available reading index and programme trial before enrolling.
2. ZELVU provides learning support. It does not award the underlying degree, professional registration or an examination result.
3. Current checkout terms and refund policy apply. Payment and access require successful provider verification.

## Take the next step

**Explore the programme trial**

**View current details, scope and terms**
