Programme overview

Four written lessons introduce the Montessori approach as independent study: the prepared environment, observation, the three-period lesson, practical life, sensorial work, early language and maths overviews, the work cycle, and safety and child-protection basics, ending with a capstone plan. It is not a Montessori or other teaching qualification, does not qualify anyone to teach in a Montessori school, and offers no recognised diploma or placement. Four self-paced written English lessons in two modules, with original fictional examples, explained practice and a self-assessed capstone. Optional automated Course Tutor assistance is available in the protected LMS. Readings are AI-authored with independent AI editorial and primary-source checks; independent human academic review is not included. Independent ZELVU study support within the listed scope. No vendor, awarding-body or university certification, official examination, exam voucher, licence or software subscription is included, and ZELVU is not affiliated with any vendor or certifying body. No job placement, income or pass-mark guarantee is made. Live human teaching, individual human marking and a recorded video lecture series are not included. Examination fees, software subscriptions, cloud usage charges and course-completion certificates from third parties are separate. Practical exercises use supplied fictional scenarios and free

or offline alternatives. Suggested study hours include reading, practice and revision, not video runtime. Related ZELVU courses cover general teaching and child development topics. Learners should check the requirements of any employer, school, regulator or training body separately, since each sets its own standards for Montessori or early years work.
