Programme overview

A practical introductory course in a declared Parashari-style Prashna framework using ascendant, question house and significator. Covers question records, house selection, planetary connections, conflicting indicators and bounded reports. It does not claim mastery of every Kerala, Tajika, KP or regional horary system. Six self-paced written lessons in English with worked examples, exercises, explained answers and a capstone with a self-assessment rubric. Optional automated Course Tutor assistance is available in the protected LMS. Study of traditional and symbolic interpretive methods. Astrological predictions are not scientifically established. No live human classes, personal chart consultation, individual human marking, recorded lecture series, software licence, external accreditation or guaranteed outcome is included. Examples use fictional or supplied data; this course does not provide medical, financial or legal advice. Uses natal-chart fundamentals from kundali-reading-horoscope-analysis but applies them to a recorded question moment. KP horary and Jamakol methods require their own conventions and are not silently merged here.

Who this is for

1. Know sign rulers, inclusive house counting and basic Vedic chart structure; complete the existing Kundali reading or Vedic foundation programme.
2. Use fictional or explicitly consented chart data; keep personal birth details private.
