Programme overview

Eight original self-paced written English lessons on source-library design, metadata checking, duplicates, Zotero, Mendeley Cite, EndNote, style conversion and controlled document handoff. Includes original exercises, explained answers and a self-assessed capstone. Optional existing automated Course Tutor support; software licences, extra storage, paid services, recorded lectures and human marking are not included. 8 self-paced written English lessons with original examples, practical exercises, explained answers and a self-assessed capstone. Optional automated Course Tutor assistance is available in the protected LMS. Independent ZELVU practical study. Software licences, official style manuals, live human teaching, individual marking, recorded lecture series, external accreditation and journal publication are not included. Follow the required institution or journal guide and verify source metadata; examples labelled fictional are for formatting practice only. These same eight lessons are included in the comprehensive Academic Referencing Complete Course. Choose this specialist route or the master route; buying both repeats the content.

Who this is for

1. Basic academic citation knowledge and a computer suitable for the learner's chosen tool. The core practical route can use free Zotero and public practice sources; an EndNote licence is not required to read the comparative lessons.
2. Use a personal practice manuscript and permitted, non-confidential source records.

Published topics and learning focus

1. The reference-manager data model and tool choice
2. Duplicates, backups, sync and privacy
3. Zotero: capture, organise and verify sources
4. Zotero: cite in Word and Google Docs
5. Mendeley Reference Manager and Mendeley Cite
6. EndNote libraries, Cite While You Write and access boundaries
7. Style conversion and library migration
8. Capstone: a verified library and maintainable manuscript
