Study plan

**25 self-paced reading workshops · 12  
months access**

Learning format

**25 self-paced written workshops,  
answered self-checks and final case  
assignment**

## Programme overview

Build a coordinated safety-management plan across governance, risk, technical awareness, health, emergencies and improvement. 25 written workshops with worked cases, worksheets, answered self-checks and a final assignment. Online theory only; no recognised safety qualification or practical certification. Independent online knowledge and planning course. No statutory safety-officer qualification, diploma, NEBOSH/IOSH/OSHA accreditation, ISO certification, operator licence or practical competence assessment. No live classes, human marking, practical drills or full-course videos. Hazardous work requires task-specific competent training and employer authorisation. The comprehensive Safety Management course includes all 24 topic workshops used by the focused courses. Focused courses reuse the listed workshops and add their own final case assignment. Compare the reading index; buying both may duplicate material.

## Who this is for

- 1 For adults aged 18+ seeking introductory safety-management knowledge; basic English reading is needed.
- 2 All exercises are fictional desktop tasks. Do not perform hazardous work, site entry, equipment testing or emergency drills from these notes.

- 3 Independent online knowledge and planning course. No statutory safety-officer qualification, diploma, NEBOSH/IOSH/OSHA accreditation, ISO certification, operator licence or practical competence assessment. No live classes, human marking, practical drills or full-course videos. Hazardous work requires task-specific competent training and employer authorisation.
- 4 The comprehensive Safety Management course includes all 24 topic workshops used by the focused courses. Focused courses reuse the listed workshops and add their own final case assignment. Compare the reading index; buying both may duplicate material.

## Published topics and learning focus

- 1 Safety roles, competence and a working management system
- 2 Hazard identification and a defensible risk assessment
- 3 Choose controls using the hierarchy of prevention
- 4 Job safety analysis, briefings and change triggers
- 5 Workplace inspections and evidence-based findings
- 6 Incident response, reporting and preserving evidence
- 7 Causal analysis without blame or invented certainty
- 8 Corrective actions, verification and useful safety indicators
- 9 Machinery hazards, guards and hazardous energy awareness
- 10 Electrical safety boundaries and isolation governance
- 11 Fire prevention and the limits of firefighting awareness
- 12 Emergency planning, inclusive evacuation and drills
- 13 Work at height, access systems and fall-prevention awareness
- 14 Excavations, ground disturbance and temporary works awareness
- 15 Lifting operations, vehicle interfaces and public protection
- 16 Chemical hazard communication, SDS and exposure pathways
- 17 Occupational hygiene, exposure and health surveillance boundaries
- 18 Manual handling, ergonomics, fatigue and psychosocial risks

- 19 Permit-to-work lifecycle and simultaneous operations
- 20 Confined-space recognition and the no-unplanned-rescue rule
- 21 Contractor coordination, induction and supervisor leadership
- 22 ISO 45001 awareness and the plan-do-check-act approach
- 23 Safety audits, sampling, findings and management review
- 24 Environmental interfaces, waste, spill planning and change management
- 25 Final case assignment and explained self-assessment

## Before you choose

- 1 These are published programme highlights, not certification of complete syllabus coverage. Review the available reading index and programme trial before enrolling.
- 2 ZELVU provides learning support. It does not award the underlying degree, professional registration or an examination result.
- 3 Current checkout terms and refund policy apply. Payment and access require successful provider verification.
