Programme overview

Five focused courses in one purchase: choosing a destination and budget, applications and statements, funding and loans, student-visa readiness and departure safety, and the first ninety days abroad. Study 20 original written lessons with worked fictional examples, explained checks and five self-assessed capstones. It teaches method and verification from official sources; it does not state current fees, caps or visa rules, choose a country for you, or promise any offer, award, loan or visa. 20 self-paced written English lessons with original fictional examples, explained checks and 5 self-assessed capstones. Optional automated Course Tutor assistance is available in the protected LMS. Readings are AI-authored with automated structural checks; independent human academic review is not included. This is general educational preparation, not immigration, legal, financial, tax or medical advice. No fees, caps, processing times or visa rules are stated because they change: each lesson teaches you to read the current official page. No admission, scholarship, loan, visa or employment outcome is promised, and ZELVU is not an agent or representative of any university or government. Tuition, application and visa fees, tests, insurance and travel are separate. Live human classes, individual feedback, consultancy and a recorded video lecture series are not included. Suggested study time is not video runtime. Includes the same 20 written lessons as the five focused study-abroad preparation courses, within one

course. Separate focused-course purchases are unnecessary. This purchase does not grant separate course entitlements or extend earlier purchases. The existing Study Abroad Readiness course and the free subject planning guides are separate and are not included.

Who this is for

1. Basic English and arithmetic. Parents or guardians should read the funding lessons with younger learners. Read each destination authority's current official page before relying on any rule.
2. Use fictional data for practice and keep your own documents private. Follow each institution's and government's current rules.
