Diploma, Vocational & Skills / Software Testing & QA

One-time full-course fee

INR 1,999

Access

12 months course access

Study plan

20 suggested study hours; 12 months access

Learning format

6 self-paced written English lessons with original explanations, worked examples, answered exercises and a self-assessed capstone. Includes a protected downloadable local QA practice kit. Existing automated Course Tutor assistance is available in the LMS.

Programme overview

Develop a contextual test strategy, prioritise a qualitative risk register, estimate a bounded plan, interpret progress/defect evidence and make a release recommendation. Six lessons teach selected management methods and a fictional planning capstone; this is not complete CTAL-TM examination preparation or professional sign-off. 6 self-paced written English lessons with original explanations, worked examples, answered exercises and a self-assessed capstone. Includes a protected downloadable local QA practice kit. Existing automated Course Tutor assistance is available in the LMS. Independent ZELVU practical study. No live instructor classes, recorded lecture series, individual human grading, job placement, external certification, ISTQB accreditation or examination voucher is included. Use only supplied local or explicitly authorised lab targets and fictional data. Tool installation and any required device/emulator are the learner's responsibility; paid cloud services and AI APIs are not required for the supplied exercises. These readings may also be included in the separately offered Software QA and SDET Learning Path; compare its published syllabus before buying both.

Who this is for

1. Practical familiarity with test cases, defects and software delivery. Arithmetic uses supplied fictional figures; no project-management subscription or coding is required.
2. Use fictional data and local or explicitly authorised test systems.

Published topics and learning focus

1. Build a contextual test strategy
2. Prioritise a qualitative risk register
3. Estimate effort and fit a realistic capacity
4. Monitor evidence, defects and progress
5. Make a release recommendation from evidence
6. Capstone: plan and decide under a fixed testing budget

Before you choose

1. These are published programme highlights, not certification of complete syllabus coverage. Review the available reading index and programme trial before enrolling.
2. ZELVU provides learning support. It does not award the underlying degree, professional registration or an examination result.
3. Current checkout terms and refund policy apply. Payment and access require successful provider verification.
