Self-paced subject tutorials · 12 months access

Learning format

Self-paced selected subject readings, teaching methodology and Course Tutor support

Programme overview

Subject tutorials for Trained Graduate Teacher aspirants: physics, chemistry, biology, environment, scientific reasoning and subject pedagogy. Includes selected published foundation readings and teaching-methodology support; complete recruiter-specific syllabus coverage is not certified. The initial set uses selected Classes 9-10 and subject-pedagogy readings. It does not establish complete graduate-level science coverage or replace laboratory training. Additional topics depend on the recruiting authority.

Who this is for

1. Graduates, teacher-training students and aspirants preparing for the relevant TGT subject; review the published reading index before enrolling.
2. Course enrolment is separate from recruitment eligibility. Verify the current notice for degree subjects, teacher-training qualification, CTET/TET, marks, age and relaxations.
3. Independent ZELVU learning support. This course does not award a B.Ed., CTET/TET qualification or government appointment, and does not imply recruiting-authority affiliation.

Published topics and learning focus

1. Motion, forces and school-level physics
2. Chemical principles and reactions
3. Biology and environment
4. Experimental reasoning and science pedagogy
5. Child development, lesson planning and assessment

Before you choose

1. These are published programme highlights, not certification of complete syllabus coverage. Review the available reading index and programme trial before enrolling.
2. ZELVU provides learning support. It does not award the underlying degree, professional registration or an examination result.
3. Current checkout terms and refund policy apply. Payment and access require successful provider verification.
