Diploma, Vocational & Skills / Software Testing & QA

One-time full-course fee

INR 1,199

Access

12 months course access

Study plan

16 suggested study hours; 12 months access

Learning format

6 self-paced written English lessons with original explanations, worked examples, answered exercises and a self-assessed capstone. Includes a protected downloadable local QA practice kit. Existing automated Course Tutor assistance is available in the LMS.

Programme overview

Plan and evaluate acceptance of a fictional room-booking workflow using stakeholders, measurable criteria, process/rule models, execution evidence, defect disposition and a reasoned acceptance recommendation. This is a scoped practical foundation, not external certification or authority to approve real systems. 6 self-paced written English lessons with original explanations, worked examples, answered exercises and a self-assessed capstone. Includes a protected downloadable local QA practice kit. Existing automated Course Tutor assistance is available in the LMS. Independent ZELVU practical study. No live instructor classes, recorded lecture series, individual human grading, job placement, external certification, ISTQB accreditation or examination voucher is included. Use only supplied local or explicitly authorised lab targets and fictional data. Tool installation and any required device/emulator are the learner's responsibility; paid cloud services and AI APIs are not required for the supplied exercises. These readings may also be included in the separately offered Software QA and SDET Learning Path; compare its published syllabus before buying both.

Who this is for

1. Basic testing vocabulary and familiarity with a business workflow. All required exercises use supplied fictional records and can be completed without coding or a paid tool.
2. Use fictional data and local or explicitly authorised test systems.

Published topics and learning focus

1. Define acceptance purpose and decision authority
2. Write measurable acceptance criteria
3. Model workflow states and decision rules
4. Execute and reconcile acceptance evidence
5. Triage findings and document residual risk
6. Capstone: acceptance of a room-booking workflow

Before you choose

1. These are published programme highlights, not certification of complete syllabus coverage. Review the available reading index and programme trial before enrolling.
2. ZELVU provides learning support. It does not award the underlying degree, professional registration or an examination result.
3. Current checkout terms and refund policy apply. Payment and access require successful provider verification.
