FREE PLANNING GUIDE

Educational Technology - Study Abroad Planning

Study Abroad · Education & Teacher Training

Free public planning guide **Free**	Access **Public guide; no paid LMS entitlement**
Study plan **Self-guided research**	Learning format **Downloadable planning guide and online subject checks**

Programme overview

Separate academic education degrees from programmes that lead to teacher registration. Compare three Educational Technology programmes at your intended qualification level using the institutions' official curricula and requirements.

Who this is for

1. Prospective international students and parents researching this subject area.

Your subject research checklist

1. Check supervised school placement hours and whether the institution arranges placements for international students.
2. Verify the destination's teaching registration route and language requirements directly with the regulator.
3. Compare age-group and subject specialisms, background checks and placement costs.
4. Academic fit: record previous subjects, grades, language evidence and any portfolio, entrance test or work experience.

5 Cost: save official tuition, living-cost estimates, currency, deposit deadlines and cancellation conditions with the date checked.

6 Outcome: distinguish the qualification from professional registration, placement and immigration outcomes; verify each separately.

7 Area example: A master's in education may develop research skills without qualifying its holder to teach in a state school. Request the precise registration outcome in writing.

8 Your output: a three-option comparison and unanswered questions for universities. Mark missing facts as unverified.

Before you choose

1 This guide is not a degree, a partner-university listing, or an additional paid ZELVU course. University tuition and government charges are separate.

2 Verify recognition, eligibility, curriculum, fees and deadlines directly for the institution, campus, level and intake. Admission and visa decisions remain with the relevant authorities.

3 Optional consultation, shortlisting and application support have separate scopes and fees. No admission, scholarship or visa outcome is guaranteed.
