Study plan **Self-guided research**	Learning format **Downloadable planning guide and online subject checks**

Programme overview

Distinguish academic social-science study from routes into regulated professional practice. Compare three Library and Information Science programmes at your intended qualification level using the institutions' official curricula and requirements.

Who this is for

1. Prospective international students and parents researching this subject area.

Your subject research checklist

1. Check statistics, methods and prior-subject prerequisites for the intended level.
2. Compare dissertation supervision, fieldwork access and ethics requirements.
3. For clinical or counselling ambitions, verify professional accreditation separately from university recognition.
4. Academic fit: record previous subjects, grades, language evidence and any portfolio, entrance test or work experience.
5. Cost: save official tuition, living-cost estimates, currency, deposit deadlines and cancellation conditions with the date checked.

6 Outcome: distinguish the qualification from professional registration, placement and immigration outcomes; verify each separately.

7 Area example: A general psychology degree and a professional clinical training route have different entry and practice outcomes. Map the full route before paying a deposit.

8 Your output: a three-option comparison and unanswered questions for universities. Mark missing facts as unverified.

Before you choose

1 This guide is not a degree, a partner-university listing, or an additional paid ZELVU course. University tuition and government charges are separate.

2 Verify recognition, eligibility, curriculum, fees and deadlines directly for the institution, campus, level and intake. Admission and visa decisions remain with the relevant authorities.

3 Optional consultation, shortlisting and application support have separate scopes and fees. No admission, scholarship or visa outcome is guaranteed.
